Steve,

Just one more note. Unreconciled summary reports cannot be released to anyone outside the site team even DOJ. When we verbally give out these numbers we always preference them with “estimated costs that are not yet certified.” Just fyi, in case you didn’t know.

Sharon

Subject: RE: Animas River Site Costs

Hi Steve,

I will request (today) a current unreconciled cost package for Upper Animas, 085M; Mogul/Grand Mogul Mine 08TV, and Red and Bonita Mine 08UP. The time frame will be 10/01/1980 to 4/21/2014. We should have the update in approx. week. This is not a time intensive task like a certified cost package will be.

Please see the attached, which were the unreconciled costs through 11/15/2011.

Subject: Animas River Site Costs

Hi Mike, Kelcey and I were talking today, and she suggested that I contact you about getting some information about our past costs for the Upper Animas site. I'm defining the site fairly broadly, so I would like to include any costs associated with the Upper Cement Creek and Red and Bonita Mine site IDs as well.

The intended use for this information is all internal to the Region, so the figures do not have to be certified. One important parameter, however, is the time frame for which we have cost information. I'd like to be as thorough as possible, but only within reasonable bounds, since some work at the site may go back 15 years or more.

Let me know if this makes sense and how big of an effort it might be. As I said, I'm the primary user of this information at this point, so I don't want to take too much of your time.

Thanks,

Steve
